EDUCATION

PDP Academy Tashkent City
Python Developer *Oct. 2022 – Dec 2023*

PROJECTS

Anhor Restaurant | *Python, PostgreSQL, Docker, Aiogram3* Feb 2024 – March 2024

- Created a bot for the delivery service of "Anhor Restaurant", the bot created convenience for customers, for example, customers had the opportunity to see all the dishes on the menu and made it easier to order. The benefit of a bot for a restaurant is that the number of orders has increased and the order has been received more easily as it has made ordering easier.
- Implemented GitHub OAuth to get data from user's repositories
- Visualized GitHub data to show collaboration
- Used Celery and Redis for asynchronous tasks

Darkor22 | *Python, PostgreSQL, Docker, Aiogram3* March 2024 – April 20204

- Created a bot for "Darkor22" recruiting agency. The bot has made it easy for employers and workers to post ads quickly and easily. Due to the complexity of posting ads on the site, many users were not able to post their ads, but these problems were solved by the bot.
- Implemented GitHub OAuth to get data from user's repositories
- Visualized GitHub data to show collaboration
- Used Celery and Redis for asynchronous tasks

TECHNICAL SKILLS

Languages: Python, SQL (Postgres)
Frameworks: Django , REST API
Developer Tools: GitHub, Docker, PyCharm
Additional: Telegram Bot, Redis, Celery, Gunicorn
